Advisory Committee to the Select Education Accountability Committee

Interim Topics

1. 2012 Wyoming Laws, Chapter 101, Section 6(c) requires the Select Education Accountability Committee to commence the study of phase II of the statewide education accountability system to include the performance of school and district leaders and teachers. To initiate this effort, the Advisory Committee is tasked with developing a framework for educator (teacher and leader) evaluation. Advisory Committee work will be used to engage Select Committee in building the framework to create a state model system to serve as the basis for 2013 legislation and a starting point for fully-developed district systems.

2. 2012 Wyoming Laws, Chapter 101, Section 6(b)(iv) requires the Select Committee, through the Advisory Committee, to study and develop recommendations pertaining to a system of state supports and capacity building necessary to improve educational systems at a statewide level. To forward this request, the Advisory Committee will be working with the Department of Education to create a design for how Wyoming's educational system can incorporate and model continuous school improvement.

3. In regard to student, parental and community accountability, as referenced in 2012 Wyoming Laws, Chapter 101, Section 6(e), Advisory Committee will individually conduct meetings with local constituencies to both inform communities on the accountability system and to solicit input on performance, accountability and Wyoming education systems in general.
