

MANAGEMENT ANALYSIS & PLANNING, INC.

WYOMING EDUCATION FINANCE Small District Report

Errata Sheet – November 7, 2002

Erratum 1: Page 9 - The first paragraph after Table 5 should read: “For districts with more than 1,000 students, the small district allocation would apply until the funding through this allocation is equal to or less than the funding the district would receive for central office operations through the central administration funding formula. To ascertain where this point occurs, we computed the small district allocation divided by the central administration formula per ADM. In the current model, the cutoff point is an enrollment of 2,346.48545830864.”

Erratum 2: The footnote associated with the second sentence of the paragraph should be eliminated.
