

HOUSE BILL NO. _____

Natural gas valuation.

Sponsored by: Joint Revenue Interim Committee

A BILL

for

1 AN ACT relating to taxation and revenue; providing for the
 2 valuation of certain natural gas for taxation purposes;
 3 providing definitions; specifying applicability; requiring
 4 application and a report; and providing for an effective
 5 date.

6

7 *Be It Enacted by the Legislature of the State of Wyoming:*

8

9 **Section 1.** W.S. 39-14-201(a) by creating new
 10 paragraphs (xxxiii) through (xxxvii) and
 11 39-14-203(b) (vi) (intro), (C) and by creating a new
 12 subparagraph (E) are amended to read:

13

14 **39-14-201. Definitions.**

15

16 (a) As used in this article:

17

1 (xxxiii) For the purposes of W.S.
2 39-14-203(b) (vi) (E), "processing facility" means a facility
3 where any activity occurs which changes the well stream's
4 physical or chemical characteristics, enhances the
5 marketability of the stream or enhances the value of the
6 separate components of the stream. Processing in the
7 facility includes any activity included in the definition
8 of processing provided by paragraph (xviii) of this
9 subsection;

10
11 (xxxiv) For the purposes of W.S.
12 39-14-203(b) (vi) (E), "rate of return" means the industrial
13 rate associated with the Standard and Poor's "B" rating for
14 ten (10) year bonds, and shall be the monthly average rate
15 as published in Standard and Poor's Bond Guide for the
16 first month of the production year;

17
18 (xxxv) For the purposes of W.S.
19 39-14-203(b) (vi) (E), "return on investment" means the
20 product of the rate of return multiplied by the gross
21 capital investment relating to the processing facility on
22 the financial records of the taxpayer. The gross capital
23 investment shall be calculated as the balances on January 1

1 plus December 31 of the production year, divided by two
2 (2);

3
4 (xxxvi) For the purposes of W.S.
5 39-14-203(b)(vi)(E), "total direct processing costs" means
6 costs incurred within the processing facility attributable
7 to processing the natural gas stream. The costs include
8 salaries and benefits; contract labor; repairs and
9 maintenance including processing facility turnarounds;
10 fuel, power and utilities; chemicals; processing facility
11 premise lease costs to nonaffiliated parties; waste water
12 treatment; disposal of byproduct and waste products;
13 safety; costs of environmental permitting and monitoring,
14 federal and state environmental compliance fees, and
15 remediation of environmental accidents; laboratory;
16 distributive control system; and ad valorem taxes on real
17 and tangible personal property excluding the gross products
18 tax;

19
20 (xxxvii) For the purposes of W.S.
21 39-14-203(b)(vi)(E), "gross capital investment" means the
22 total gross capitalized investment of a processing facility
23 as defined in paragraph (xxxiii) of this subsection. The

1 gross capital investment shall be determined in accordance
2 with generally accepted accounting practices.

3

4 **39-14-203. Imposition.**

5

6 (b) Basis of tax. The following shall apply:

7

8 (vi) Except as otherwise provided in
9 subparagraph (E) of this paragraph and paragraph (vii) of
10 this subsection, in the event the crude oil, lease
11 condensate or natural gas production as provided by
12 paragraphs (iii) and (iv) of this subsection is not sold at
13 or prior to the point of valuation by bona fide arms-length
14 sale, or, except as otherwise provided, if the production
15 is used without sale, the department shall identify the
16 method it intends to apply under this paragraph to
17 determine the fair market value and notify the taxpayer of
18 that method on or before September 1 of the year preceding
19 the year for which the method shall be employed. The
20 department shall determine the fair market value by
21 application of one (1) of the following methods:

22

23 (C) Netback - The fair market value of
24 crude oil, lease condensate or natural gas which is

1 processed in a processing facility not owned in part or in
2 total by the producer is the sales price minus expenses
3 incurred by the producer for transporting produced minerals
4 to the point of sale and third party processing fees; ~~-. The~~
5 ~~netback method shall not be utilized in determining the~~
6 ~~taxable value of natural gas which is processed by the~~
7 ~~producer of the natural gas;~~

8
9 (E) Netback - Producer/processor: the fair
10 market value of natural gas which is processed in a
11 processing facility owned in part or in total by the
12 producer of the natural gas being processed shall be:

13
14 (I) The total amount received from the
15 sale of the natural gas minus the total direct processing
16 costs, return on investment and transportation expenses
17 incurred by the producer-processor from the point of
18 valuation to the point of sale;

19
20 (II) There shall be one (1) point of
21 valuation for all interest owners of the processing
22 facility in accordance with paragraph (iv) of this
23 subsection;

24

1 (III) A minimum fair market value
2 shall be established for each production year. The minimum
3 fair market value shall be the producer's variable direct
4 costs of producing the natural gas, which shall mean all
5 direct expenditures incurred prior to the point of
6 valuation that are specifically attributable to producing
7 the natural gas which was produced during the production
8 year. Variable direct costs of producing include labor
9 costs for field and production personnel directly
10 responsible for extracting the minerals; the costs of all
11 materials, equipment and supplies used for and during
12 production; repairs and maintenance on the wells; cost of
13 fuel, power and other utilities used for production and
14 maintenance; and gathering and transportation expenses to
15 the point of valuation. As used in this subdivision,
16 "variable direct costs of producing" shall not include any
17 costs which the producer has expended or committed to
18 expend prior to the production year or which are not
19 specifically related to physically producing the natural
20 gas during the production year, including preparation of
21 the well site; tangible and intangible drilling costs; dry
22 hole expense; depreciation, depletion and amortization of
23 wells and well equipment; ad valorem property taxes;
24 royalties or any production taxes.

1

2 **Section 2.** W.S. 39-14-203(b)(vi)(D) and (ix) is
3 repealed.

4

5 **Section 3.** This act shall apply to all production on
6 and after January 1, 2005.

7

8 **Section 4.**

9

10 (a) Effective January 1, 2005, the department shall
11 apply the netback valuation methodology to any producer
12 otherwise qualifying for that method as provided by this
13 act. The methodology shall be applied for three (3)
14 consecutive years.

15

16 (b) The department shall report to the governor and
17 the joint revenue interim committee on the application of
18 the methodology on or before September 1, 2007.

19

20 **Section 5.** This act is effective January 1, 2005.

21
