

Proposed amendment number 2 to 07 LSO 0129.W2

This amendment would remove the requirement that the fourth year of math must be a statistics course or one for which Algebra II or geometry is a prerequisite. This amendment alone does not address the "four years in grades 9-12" requirement, other than the fourth year course must be taken in grades 9-12. If the Committee adopts amendment 1 (eliminating the "four years in grades 9-12 requirement") and this amendment, the fourth year of math would still be required to be taken in grades 9-12. The limited exception for the fourth year math course currently in the draft is deleted here as it is in Amendment 1. Conforming amendments will be required depending on how the Committee handles Amendment 1.

- 1 Page 5-line 10 After "paragraph." delete balance of the line.
- 2
- 3 Page 5-line 11 Delete "paragraph.".
- 4
- 5 Page 5-line 20 After "(D)" delete balance of the line and insert "An additional math
6 course taken in grades nine (9) through twelve (12).".
- 7
