

Proposed amendment number 4 to 07 LSO 0129.W2

This amendment would require the department of education to establish by rule a process for each school district to submit course listings for verification by the department for Hathaway success curriculum eligibility. School districts would be required to identify "Hathaway success curriculum courses" on student transcripts currently required to be provided to the post-secondary institutions for Hathaway eligibility determinations. The amendment also requires agreements for "border students" attending an out-of-state high school to contain provisions for the out-of-state school district to work with the department to identify qualifying courses.
