8       **Section 1.** The legislature finds that a number of  
9 programs managed by the game and fish commission are of  
10 benefit to the citizens of the state of Wyoming whether or  
11 not those citizens hunt and fish. Historically, funding  
12 for wildlife conservation has been almost totally dependent  
13 on user fees from hunters and anglers. The intent of this  
14 act is to provide general funding for programs managed by  
15 the game and fish commission that benefit the population in  
16 general.
