Section 329.

(a) In addition to the authority in section 305 of this act and notwithstanding W.S. 9-2-1005(a) and (c), section 307 and section 310 of this act, the governor is authorized to transfer up to twenty-one (21) full-time positions and a cumulative two million five hundred six thousand eight hundred thirty-seven dollars (\$2,506,837.00) of general funds appropriated under this act from any agency to any other agency and from any expenditure series to any other expenditure series in order to restore the vacancy reductions in this act for the budget period beginning July 1, 2020 and ending June 30, 2022 if he determines that the vacancy reductions are likely to result in an adverse impact

to health, welfare or delivery of state services or result in a conflict with any other law.

(b) In making the transfers authorized under this section, no funds may be used to increase the salary of any authorized position. Nothing in this section shall prohibit any transfer by the governor to avoid a decrease to an employee's compensation as of the effective date of this section or a reduction in the number of authorized employees as specified in this act.

(c) Prior to making any transfers under this section, the governor shall report on his proposed transfers of funds to the management council of the legislature and the joint appropriations committee not later than June 30, 2020. In the report, the governor shall detail the amount, agency and expenditure series at the object code level from which and to which funds are proposed to be transferred.

(d) The joint appropriations committee and any other committee or committees designated by management council shall report back to the governor not later than August 1, 2020 in response to the governor's proposed transfers.

(e) All transfers authorized under this section shall be executed by the governor between August 1, 2020 and September 1, 2020 and reported to the joint appropriations committee through the B-11 process as authorized by W.S. 9-2-1005(b)(ii) and reported pursuant to W.S. 9-2-1013(b).

(f) Any provision of this act or any other legislation enacted that specifies that an appropriation shall not be transferred or expended for any other purpose or containing language of like effect shall apply and shall prohibit a transfer under this section.

(g) As used in this section, "vacancy reduction" means an equivalent general fund savings from any legislatively authorized full-time position within the executive branch which is funded one hundred percent (100%) from state general funds.

(h) This section shall not apply to any appropriations made for capital construction projects or to any appropriations made to the judicial branch.

[FISCAL YEAR 2022 ANTICIPATED BUDGET REDUCTIONS]

Section 331.

(a) In anticipation of continuing challenges to Wyoming's revenues, the governor shall work with agency and department leaders to identify and implement budget reductions equal to one percent (1%) of each agency's or department's standard budget for programs supported by the state general fund during fiscal year 2022. These reductions should consider, but not be limited to, the following criteria:

(i) Savings to personal services (100 series) related to increasing the span of control and supervision within each agency or department;

(ii) Savings related to program and process efficiencies that may reduce the need for expenditures in support services (200 series) and contract services (900 series) within each agency or department;

(iii) Any other areas that will yield the budget reduction level specified in this section and that will continue to allow each agency or department to meet its operational and programmatic mission.

(b) Each agency and department shall report its savings efforts and identified savings amounts pursuant to this section to the budget division and human resources division of the department of administration and information not later than September 1, 2020. The budget division and human resources division of the department of administration and information shall compile the reports and savings amounts and report to the joint appropriations committee as part of the governor's supplemental budget submission not later than November 16, 2020. The report shall include the program, service and position reductions identified or implemented to meet the purpose of this section.

(c) It is the intent of the legislature that during the 2021 general session there will be budget reductions equivalent to one percent (1%) of each agency's or department's standard budget for programs supported by the state general fund if agency identified or implemented savings do not meet the purposes of this section.

(d) This section is effective immediately.

This appropriation shall not be transferred or expended for any other purpose.

(d) Pursuant to subsection (c) of this section, from the effective date of this subsection and ending December 31, 2021, to the extent funds are available in the separate accounts, the state treasurer shall match gifts of cash or cash equivalent amounts received by a community college district and certified to the state treasurer in accordance with the following:

(m) In determining the amount to be included in the foundation program for each district, the state superintendent shall:

(v) Based upon ADM computations and identified school configurations within each district pursuant to paragraph (iv) of this subsection, compute the foundation program amount for each district as prescribed by the education resource block grant model adopted by the Wyoming legislature as defined under W.S. 21-13-101(a)(xiv), as contained within the spreadsheets and accompanying reports referenced under W.S. 21-13-101(a)(xvii). The following criteria shall be used by the state superintendent in the administration of the education resource block grant model:

(F) Amounts provided within the model for health insurance shall be based upon:

(I) Prior year statewide average district weighted actual participation in district health insurance plans as to the proportion of employee only, split contracts, employee plus spouse or children and family coverage; ~~and~~

(II) The annualized state contribution rate as of January 1 of the preceding school year, on behalf of each employee and official enrolled in the state group health insurance plan, for employee only, split contracts, employee plus spouse or children and family coverage- except as provided in subdivision (III) of this subparagraph; and

(III) For school year 2020-2021 and school year 2021-2022, the amount provided to a school district for health insurance shall be calculated using the annualized state contribution rate as of January 1, 2019 for employee only, split contracts, employee plus spouse or children and family coverage based on district weighted actual participation in district health insurance plans for the 2018-2019 school year, plus additional funding as calculated pursuant to 2020 Senate File 0001, Section 334(b) as enacted into law.

(b) The department of education shall adjust each school district's foundation program amount computed in accordance with W.S. 21-13-309(p) for school year 2020-2021 and school year 2021-2022 to provide additional health insurance funding under this subsection. The health insurance adjustment added to each school district's foundation program amount shall be calculated in accordance with the following:

(i) The department of education shall calculate the difference between the annualized state contribution rate as of January 1 of the preceding school year for employee only, split contracts, employee plus spouse or children and family coverage based on school district weighted actual participation in school district health insurance plans for the preceding school year and the annualized state contribution rate as of January 1, 2019 for employee only, split contracts, employee plus spouse or children and family coverage based on school district weighted actual participation in school district health insurance plans for the 2018-2019 school year;

(ii) The department of education shall calculate the number of school district employees funded within the education resource block grant model that are actually enrolled in a school district health insurance plan for the preceding school year;

(iii) The department of education shall calculate the number of education resource block grant model funded positions for which an employee is not actually enrolled in a school district health insurance plan for the preceding school year;

(iv) The additional amount calculated under this subsection to be added to the foundation program amount for each school district shall be the sum of the products calculated in the following two subparagraphs:

(A) The number of employees calculated under paragraph (ii) of this subsection multiplied by the difference calculated under paragraph (i) of this subsection;

(B) The number of positions calculated under paragraph (iii) of this subsection multiplied by the difference calculated under paragraph (i) of this subsection multiplied by one-half (1/2).

(f) In addition to the program established under subsection (a) of this section, and to promote employment of national board certified teachers by school districts, each district employing a national board certified teacher shall be reimbursed for payments to these teachers subject to the following:

(i) For each year the certificate is valid, the district provides each teacher employed by the district and holding certification by the national board for professional teaching standards a lump sum payment of four thousand dollars (\$4,000.00), except that for school year 2020-2021 and school year 2021-2022 a lump sum payment of three thousand dollars (\$3,000.00) shall be made, which payment is in addition to the teacher's annual salary as determined by the board, and which is paid to each certified teacher between December 1 and December 31 of the school year for which application is made;

(b) Nothing in this section shall be interpreted to prohibit a school district from expending local resources for purposes of a lump sum payment in the amount of one thousand dollars (\$1,000.00) to each teacher employed by the district and holding certification by the national board for professional teaching standards."
