

Certification Page Regular and Emergency Rules

Revised May 2014

Emergency Rules *(After completing all of Sections 1 and 2, proceed to Section 5 below)*

Regular Rules

1. General Information

a. Agency/Board Name Livestock Board		
b. Agency/Board Address 1934 Wyott Drive	c. City Cheyenne	d. Zip Code 82002
e. Name of Contact Person Dr. Jim Logan, DVM, State Veterinarian	f. Contact Telephone Number 307-777-6443	
g. Contact Email Address jim.logan@wyo.gov	h. Adoption Date April 7, 2015	
i. Program State Veterinarian		

2. Rule Type and Information: For each chapter listed, indicate if the rule is New, Amended, or Repealed.

If "New," provide the Enrolled Act numbers and years enacted:

c. Provide the Chapter Number, Short Title, and Rule Type of Each Chapter being Created/Amended/Repealed
(Please use the Additional Rule Information form for more than 10 chapters, and attach it to this certification)

Chapter Number:	Chapter Name:	<input type="checkbox"/> New	<input checked="" type="checkbox"/> Amended	<input type="checkbox"/> Repealed

d. The Statement of Reasons is attached to this certification.

e. If applicable, describe the **emergency** which requires promulgation of these rules without providing notice or an opportunity for a public hearing:

3. State Government Notice of Intended Rulemaking

a. Date on which the Notice of Intent containing all of the information required by W.S. 16-3-103(a) was filed with the **Secretary of State:** January 6, 2015

b. Date on which the Notice of Intent and proposed rules in strike and underscore format and a clean copy were provided to the **Legislative Service Office:** January 6, 2015

c. Date on which the Notice of Intent and proposed rules in strike and underscore format and a clean copy were provided to the **Attorney General:** January 6, 2015

4. Public Notice of Intended Rulemaking

a. Notice was mailed 45 days in advance to all persons who made a timely request for advance notice. Yes No N/A

b. A public hearing was held on the proposed rules. Yes No

If "Yes:"	Date:	Time:	City:	Location:

5. Final Filing of Rules

a. Date on which the Certification Page with original signatures and final rules were sent to the **Attorney General's Office for the Governor's signature:** 4-13-15

b. Date on which final rules were sent to the **Legislative Service Office:** 4-13-15

c. Date on which a PDF of the final rules was electronically sent to the **Secretary of State:** 4-13-15

6. Agency/Board Certification

The undersigned certifies that the foregoing information is correct.

Signature of Authorized Individual <i>(Blue ink as per Rules on Rules, Section 7)</i>	
Printed Name of Signatory	JOE THOMAS
Signatory Title	Board President
Date of Signature	4/7/15

7. Governor's Certification

I have reviewed these rules and determined that they:

- Are within the scope of the statutory authority delegated to the adopting agency;
- Appear to be within the scope of the legislative purpose of the statutory authority; and, if emergency rules,
- Are necessary and that I concur in the finding that they are an emergency.

Therefore, I approve the same.

Governor's Signature	
Date of Signature	

Attorney General: 1. Statement of Reasons; 2. Original Certification Page; 3. Summary of Comments (regular rules); 4. Hard copy of rules: clean and strike/underscore; and 5. Memo to Governor documenting emergency (for emergency rules only).

LSO: 1. Statement of Reasons; 2. Copy of Certification Page; 3. Summary of Comments (regular rules); 4. Hard copy of rules: clean and strike/underscore; 5. Electronic copy of rules (PDFs) emailed to Criss.Carlson@wyoleg.gov: clean and strike/underscore; and 6. Memo to Governor documenting emergency (for emergency rules only).

SOS: 1. PDF of clean copy of rules; and 2. Hard copy of Certification Page as delivered by the AG.

Statement of Reasons
Rabies Prevention and Post Exposure Management Rules

The State Veterinarian is proposing revisions to the Chapter 1 Rabies Prevention and Post Exposure Management Rules to establish protocols for the post exposure management of animals that have been exposed to a Rabies infected animal. Wyoming has a wildlife reservoir of Rabies, and there are frequent reports of domestic animal exposure to known infected wild species. The revisions would clarify minimum quarantine periods for exposed domestic animals. The revisions would also clarify the involvement of licensed veterinarians, and cooperation between the State Veterinarian and the State Health Officer.

Wyoming State Veterinarian's
Rabies Prevention and Post Exposure Management Rules

CHAPTER 1

Section 1. Authority to Create Rules.

(a) Pursuant to the authority vested in the Wyoming State Veterinarian by virtue of W.S. §11-19-103, the following Rules are hereby promulgated.

Section 2. Purpose of Rules.

(a) The Wyoming State Veterinarian has determined that Rabies may occasionally exist in domestic animals in Wyoming, and that there is a wildlife reservoir of the disease in the state. Rabies is an infectious and contagious disease among domestic animals and certain wild animal species. The purpose of these Rules is to protect the public health, domestic animals, and their owners by establishing procedures for the Post Exposure management of Rabies through coordinated efforts between the Wyoming Department of Health and Wyoming State Veterinarian. These rules are necessary to prevent the spread of Rabies in Wyoming.

Section 3. Severability.

(a) If any portion of these rules is found to be invalid or unenforceable, the remainder of the rules shall continue in effect.

Section 4. Definitions.

(a) For the purposes of implementing these Rules, the following definitions apply:

(i) "Accredited Veterinarian" means an individual who is licensed to practice veterinary medicine and is accredited by the United States Department of Agriculture, Animal Plant and Health Inspection Service in the state where he or she practices.

(ii) "Board" means the Wyoming Livestock Board, state agency 051, whose address is 1934 Wyott Drive, Cheyenne, WY 82002-0051, (307) 777-7515.

(iii) "Canine" means a domesticated carnivorous mammal of the genus *Canis*.

(iv) "Euthanized" means the humane ending of an animal life by, or under the direction of, a Licensed Veterinarian without physically damaging the brain.

(v) "Expose" means contact where there is potential for Rabies transmission. This occurs anytime there is reasonable possibility of transmission of Rabies from an animal that may have Rabies as determined by public health authorities. Transmission may occur when saliva or nervous tissue is introduced into bite wounds, open cuts in skin, or into mucous membranes.

(vi) “Feline” means a domesticated carnivorous mammal of the genus *Felis*.

(vii) “Isolation” means placement of an animal in a cage or pen that prevents all direct contact with humans and other animals. Isolation shall be at a veterinary clinic or other facility approved by the Wyoming State Veterinarian or State Health Officer or his or her authorized designee.

(viii) “Licensed Veterinarian” means an individual who is licensed to practice veterinary medicine in the state where he or she practices.

(ix) “Mustelid” means a domesticated carnivorous mammal of the genus *Mustela*.

(x) “Post Exposure” means any point in time occurring after Exposure to Rabies.

(xi) “Quarantine” means an official document issued by the Wyoming State Veterinarian or his or her authorized representative that restricts the movement of specified animals and sets forth requirements regarding their testing and release. All associated Quarantine costs shall be borne by the animal owner.

(xii) “Rabies” means an acute, rhabdoviral encephalomyelitis that can affect any mammal.

(xiii) “Rabies Vaccination Certificate” means the National Association of State Public Health Veterinarians Rabies vaccination form (NASPHV Form #51) that can be obtained from vaccine manufacturers, or a computer-generated form containing the same information.

(xiv) “Vaccinated Animal” means any animal that has:

(A) Received an initial Rabies vaccine, approved by the Wyoming State Veterinarian prior to use, at least twenty-eight (28) days ago but not more than three hundred sixty-five (365) days ago according to the manufacturer’s written instructions; or

(B) Received a booster Rabies vaccine, approved by the Wyoming State Veterinarian prior to use, according to the manufacturer’s written instructions.

(xv) “Wyoming State Veterinarian” means an Accredited Veterinarian employed by the Board who serves as a veterinary official of the State authorized to supervise and perform the official animal health work of the State of Wyoming.

Section 5. Local Jurisdiction Rules, Regulations, and Ordinances Recognized.

(a) Nothing in these rules prohibits local jurisdictions from enacting their own rules, regulations, or ordinances. If a local jurisdiction enacts its own rules, regulations, or ordinances, those rules, regulations, or ordinances shall govern if they are consistent with these rules.

Section 6. Rabies Post Exposure Management.

(a) The management of Vaccinated Animals that have been Exposed to Rabies shall be:

(i) The animal shall be revaccinated against Rabies within forty-eight (48) hours by a Licensed Veterinarian, and

(ii) A Quarantine shall be issued by the Wyoming State Veterinarian or his or her authorized representative requiring the animal be kept under the owner's immediate control and observed for forty-five (45) days.

(A) If during the forty-five (45) days the animal shows signs of any disease, it shall be examined by a Licensed Veterinarian. If the Licensed Veterinarian determines the clinical signs are consistent with Rabies, the veterinarian shall Euthanize the animal and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian.

(B) After forty-five (45) days, the animal shall be examined by a Licensed Veterinarian for clinical signs of Rabies.

(I) If the animal is not showing any clinical signs of Rabies, and upon consultation between the Licensed Veterinarian and the Wyoming State Veterinarian, the animal shall be released from Quarantine.

(II) If the animal is showing clinical signs of Rabies, it shall be Euthanized by a licensed veterinarian and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian.

(b) The management of previously non-Rabies vaccinated Canines, Felines, Mustelids, or stray animals that have been Exposed to Rabies shall be:

(i) The animal shall be Euthanized immediately by a Licensed Veterinarian and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian.

(A) If the owner of the animal is unwilling to allow the animal to be Euthanized, the following shall apply:

(I) The animal shall be Quarantined and placed in Isolation for a period of one hundred eighty (180) days.

(1.) During the period of the Quarantine and Isolation, the animal shall be checked weekly by a Licensed Veterinarian for clinical signs of Rabies.

(a.) If the animal shows clinical signs of Rabies, it shall be Euthanized by a licensed veterinarian and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian.

(2.) All associated costs shall be borne by the owner of the animal.

(II) If after one hundred fifty (150) days the animal is not showing any clinical signs of Rabies, and upon consultation between the Licensed Veterinarian and the Wyoming State Veterinarian, preparations shall be made to release the animal from Quarantine and Isolation in thirty (30) days.

(1.) The animal shall be vaccinated for Rabies thirty (30) days prior to release.

(c) The management of previously Vaccinated Animals, with expired Rabies Vaccination Certificates, which have been Exposed to Rabies shall be:

(i) Pursuant to W.S. §11-19-101 and W.S. §11-19-103, the Wyoming State Veterinarian, in conjunction with a public health authority, shall evaluate the situation and take appropriate action based on recognized medical science. This action may include, but is not limited to, Quarantine, Isolation, Rabies vaccination or the animal being Euthanized by a licensed veterinarian.

(d) The management of other animals that have been Exposed to Rabies shall be:

(i) Pursuant to W. S. §11-19-101 and W.S. §11-19-103, the Wyoming State Veterinarian, in conjunction with a public health authority and other appropriate officials, shall evaluate the situation and take appropriate action based on recognized medical science. This action may include, but is not limited to, Quarantine, Isolation, Rabies vaccination, or the animal being Euthanized by a licensed veterinarian.

Section 7. Management of Animals That Bite or Otherwise Possibly Expose Humans to Rabies.

(a) The management of Vaccinated Animals that bite or otherwise possibly Expose humans to Rabies shall be:

(i) The animal shall be Quarantined for a minimum of ten (10) days.

(A) If after ten (10) days the animal shows no clinical signs of Rabies, a Licensed Veterinarian, in consultation with the State Veterinarian or State Health Officer, shall release the animal from the Quarantine.

(B) If during this time any signs of Rabies develop, the animal shall be

Euthanized by a licensed veterinarian within twenty-four (24) hours, and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian.

(C) During this ten (10)-day Quarantine period, Rabies revaccination shall not occur.

(D) All associated costs shall be borne by the owner of the animal.

(b) The management of non-Rabies vaccinated Canines, Felines, Mustelids, or stray animals that bite or otherwise possibly Expose humans to Rabies shall be as follows:

(i) The Wyoming State Veterinarian or his or her authorized representative or Designee, in conjunction with a public health authority, shall evaluate the situation including the risk to the Exposed human, and recommend one of the following courses of action:

(A) The animal shall be placed in Quarantine and Isolation and observed daily by a Licensed or Accredited Veterinarian for a minimum of ten (10) days. If during this period the animal shows clinical signs of Rabies, it shall be Euthanized by a licensed veterinarian and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian. If after ten (10) days the animal shows no clinical signs of Rabies, the animal shall be released from the Quarantine and Isolation; or

(B) The animal shall be Euthanized within twenty-four (24) hours by a Licensed Veterinarian and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian.

(c) The management of previously Vaccinated Animals with expired Rabies Vaccination Certificates that bite or otherwise possibly Expose humans to Rabies shall be:

(i) Pursuant to W.S. §11-19-101 and W.S. §11-19-103, the Wyoming State Veterinarian, in conjunction with a public health authority, shall evaluate the situation and take appropriate action based on recognized medical science. This action may include, but is not limited to, Quarantine, Isolation, Rabies vaccination, or the animal being Euthanized by a licensed veterinarian.

(d) The management of other animals not vaccinated for Rabies that bite or otherwise possibly Expose humans to Rabies shall be:

(i) Pursuant to W. S. §11-19-101 and W. S. §11-19-103, the Wyoming State Veterinarian, in conjunction with a public health authority and other appropriate officials, shall evaluate the situation and take appropriate action based on recognized medical science. This action may include, but is not limited to, Quarantine, Isolation, Rabies vaccination, or the animal being Euthanized by a licensed veterinarian.

Wyoming State Veterinarian's
Rabies Prevention and Post Exposure Management Rules

CHAPTER 1

Section 1. Authority to ~~create~~ Create Rules.

Formatted: Justified

(a) Pursuant to the authority vested in the Wyoming State Veterinarian by virtue of W.S. §11-19-103(b), the following Rules are hereby promulgated.

Section 2. Purpose of Rules.

(a) The Wyoming State Veterinarian has determined that Rabies ~~exists~~ may occasionally exist in domestic animals in ~~the State of Wyoming, and that there is a wildlife reservoir of the disease in the state.~~ Rabies is an infectious and contagious disease among domestic animals ~~and certain wild animal species.~~ The purpose of these Rules is to protect the public health, domestic animals, and their owners by establishing procedures for the Post ~~exposure~~ Exposure management of Rabies through coordinated efforts between the Wyoming Department of Health and Wyoming State Veterinarian. These rules are necessary to prevent the spread of Rabies in ~~the State of Wyoming.~~

Section 3. Severability.

(a) If any portion of these rules is found to be invalid or unenforceable, the remainder of the rules shall continue in effect.

Section 4. Definitions ~~Used in Rules.~~

(a) For the purposes of implementing these Rules, the following definitions ~~exist~~ apply:

(i) "Accredited Veterinarian" means an individual who is licensed to practice veterinary medicine and is accredited by the United States Department of Agriculture, Animal Plant and Health Inspection Service in the state where he or she practices.

(ii) "Board" means the Wyoming Livestock Board, state agency 051, whose address is ~~2020 Carey Avenue 4th Floor~~ 1934 Wyatt Drive, Cheyenne, WY 82002-0051, (307) 777-7515.

(iii) "Canine" means a domesticated carnivorous mammal of the genus *Canis*.

(iv) "Euthanized" means the humane ending of an animal life by, or under the direction of, a Licensed Veterinarian ~~done~~ without physically damaging the brain.

(v) "Expose" means contact where there is potential for Rabies transmission ~~to~~

Veterinarian, in conjunction with a public health authority and other appropriate officials, shall evaluate the situation and take appropriate action based on recognized medical science. This action may include, but ~~is not be~~-limited to: Quarantine, Isolation, Rabies vaccination, or the animal being Euthanized by a licensed veterinarian.

Section 7. Management of Animals That Bite or Otherwise Possibly Expose Humans to Rabies.

(a) The management of Vaccinated Animals that bite or otherwise possibly Expose humans to Rabies shall be:

(i) The animal shall be Quarantined for a minimum of ten (10) days.

(A) If after ten (10) days the animal shows no clinical signs of Rabies, a Licensed Veterinarian, in consultation with the State Veterinarian or State Health Officer, shall release the animal from the Quarantine.

(B) If during this time, any signs of Rabies develop, the animal shall be Euthanized by a licensed veterinarian within twenty-four (24) hours, and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian.

(C) During this ten (10)-day Quarantine period, Rabies revaccination shall not occur.

(D) All associated costs shall be borne by the owner of the animal.

(b) The management of non-Rabies vaccinated Canines, Felines, Mustelids, or stray animals that bite or otherwise possibly Expose humans to Rabies shall be as follows:

(i) The Wyoming State Veterinarian or his or her authorized representative or ~~designee (i.e., Licensed Veterinarian or Accredited Veterinarian)~~ Designee, in conjunction with a public health authority, shall evaluate the situation including the risk to the Exposed human, and ~~based upon that risk and recognized medical science~~ recommend one of the following courses of action:

(A) The animal shall be placed in Quarantine and Isolation and observed daily by a Licensed or Accredited Veterinarian for a ~~period~~ minimum of ten (10) days. If during ~~the~~ this period ~~of the Quarantine and Isolation~~, the animal shows clinical signs of Rabies, it shall be Euthanized by a licensed veterinarian and the brain shall be tested for Rabies at a laboratory approved by the Wyoming State Veterinarian. If after ten (10) days, the animal shows no clinical signs of Rabies, the animal shall be released from the Quarantine and Isolation; or

(B) The animal shall be Euthanized within twenty-four (24) hours by a Licensed Veterinarian and the brain shall be tested for Rabies at a laboratory approved by the
