Matthew H. Mead
Governor

WYOMING BOARD OF MEDICINE RULES AND REGULATIONS STATEMENT OF PRINCIPAL REASONS

January 2016

The emergency rule addresses physician licensure fees. It does the following:

1. Temporarily reduces the annual physician license renewal fee from \$250 to \$200 for the 2016-2017 license cycle. See, Ch. 1, § 8 (pp. 1-19 and 1-20).

Principal Reasons for Adoption:

Wyoming law requires licensing board fees be set “in an amount to ensure that, to the extent practicable, the total revenue generated from the fees collected approximates, but does not exceed, the direct and indirect costs of administering the regulatory provisions required for the profession or occupation.” WYO. STAT. ANN. § 33-1-201(a)(ii).

The number of new physician licenses issued by the Board of Medicine has grown dramatically from 292 in calendar year 2011, to 441 in 2014, a 49 percent increase. As a result of the increase in application fees collected, in Fiscal Year (FY) 2015 (July 1, 2014-June 30, 2015) the Board of Medicine collected 29 percent more revenue than budgeted. Even if applications in FY 2016 come in at a conservative estimate, the Board is on track to receive at least 18 percent more revenue than budgeted for the 2015 biennium (July 1, 2014-June 30, 2016, or “BFY 2015”).

By reducing the \$250 physician license renewal fee by \$50, or 20 percent, for the 2016-2017 renewal period (April 1-June 30, 2016), the Board expects to bring income for FY 2016 to 10 percent under budget, resulting in BFY 2015 income of just 9 percent over budget, keeping with the spirit and intent of WYO. STAT. ANN. § 33-1-201(a)(ii).

Because of the unpredictability of physician license application numbers, and the current uncertainty in the Wyoming economy, the Board chose to use an emergency rule to make this a temporary reduction. If application numbers drop in FY 2017, the Board will not be forced to increase fees; instead, the physician license renewal fee will simply return to \$250 per year – the level it has been at since FY 2007.

The Board currently plans to separately implement a commensurate “holiday” for the physician assistant license renewal fee for the 2017 license renewal period (October 1-December 31, 2016).

As required by WYO. STAT. ANN. § 16-3-103(a)(i)(G), these proposed rules meet minimum substantive state statutory requirements.

Persons who have taken the three parts of the examination more than a total of seven times or who have taken more than seven years (eight years for applicants who have been in a combined D.O. or M.D./Ph.D. program) to pass all three parts of the examination shall not be eligible for licensure unless and until they successfully complete either one (1) year of post graduate training in addition to that required in W.S. 33-26-303(a)(iv), or one (1) or more other comprehensive and suitably-rigorous assessment, training and evaluation programs after passage of all parts of the examination.

(2) Continuous full and unrestricted medical licensure in good standing in one or more states and/or the District of Columbia for the preceding five (5) years.

Section 5. Licensure.

(a) Pursuant to the Act, the board may issue the following licenses to practice medicine:

(i) A license to practice medicine, subject to annual renewal.

(ii) A temporary license to practice medicine pursuant to W.S. 33-26-304(a).

(iii) A restricted or conditional license to practice medicine.

(iv) An inactive license. Inactive licenses are available for physicians currently licensed in Wyoming who do not intend to practice medicine, write prescriptions or engage in clinical activity. The Board may grant an inactive license to practice medicine if, in addition to meeting all eligibility requirements of W.S. 33-26-303, the applicant files a verified affidavit with the board attesting that: (1) he shall not see patients or perform procedures in a clinical or office setting for any type of remuneration, (2) he shall not in any way hold himself out as actively engaged in the active practice of medicine, and (3) he shall submit written confirmation to the board on an annual basis confirming that such inactive status is ongoing. An inactive license exempts the licensee from continuing medical education requirements described in Chapter 3, Sec. 7 of these rules. A holder of an inactive license may not prescribe medications. Licensees claiming inactive status who receive remuneration for providing clinical services, or who prescribe any medication, may be subject to discipline pursuant to W.S. 33-26-402(a)(xxvii).

(v) An emeritus license. Emeritus licenses are available for retired physicians who hold a current Wyoming license to practice medicine and wish to provide clinical care in Wyoming without remuneration or for nominal remuneration in a non-profit facility. Such license may issue to an applicant who provides proof that he is retired

from the active practice of medicine, provides proof that he has maintained a license in good standing in Wyoming or another jurisdiction of the United States or Canada for a period of not less than ten (10) years prior to applying for the emeritus license, and signs a notarized statement he will not accept any form of remuneration for medical services rendered in Wyoming while in the possession of an emeritus license, or that he is receiving only nominal remunerations for providing medical care in a non-profit facility. As part of the application process, an applicant for an emeritus medical license who does not hold a current Wyoming license shall complete all requirements for issuance of a Wyoming medical license set forth in W.S. 33-26-303. If a licensure interview is required pursuant to subsection (b) of this rule, such interview may be conducted by one (1) board member and, if deemed appropriate by the board officers, may be conducted by telephonic means.

(A) Physicians possessing an emeritus medical license shall:

(I) Annually sign an affidavit affirming that their medical practice continues to be without remuneration or is for nominal remuneration in a non-profit facility; and

(II) Even though physicians holding an emeritus license are not engaged in active clinical practice, the Board expects that they will engage in life-long learning activities to maintain a base of medical knowledge and skills. Therefore, the requirements for continuing medical education noted in Ch. 3, sec. 7 of these rules apply to emeritus licenses. Continuing medical education may also be satisfied by documented emeritus clinical service in a non-profit health care facility, such clinical service to be credited at one (1) hour of continuing medical education credit for every five (5) hours of clinical service, up to a maximum of ten (10) hours of continuing medical education credit per calendar year.

(B) The board shall require no fees for the application for, or renewal of, an emeritus medical license.

(vi) Training license. A medical training license issued pursuant to W.S. 33-26-304(c) to an applicant who meets all of the requirements of such statute and these rules.

(A) First-year training license ("T-1"). An applicant who is in the first year of enrollment in an A.C.G.M.E. or A.O.A. accredited residency program located in this state may be issued a first-year training license ("T-1" license). The holder of a T-1 license may not practice medicine outside of the duties assigned as part, and under the supervision of the faculty, of the residency program (i.e. "moonlight"). The holder of a T-1 license may not independently prescribe any legend drugs or medications, and may only prescribe legend drugs or medications with the co-signature of a physician holding an active license in good standing in this state. The prohibition on prescribing does not apply to orders written under the supervision of a licensed attending physician

for patients receiving inpatient care. The T-1 license expires on June 30th of each year, and may not be renewed.

(B) Second-year training license ("T-2"). An applicant who has successfully completed not less than one (1) year in an A.C.G.M.E. accredited residency program and is enrolled in an A.C.G.M.E. or A.O.A. accredited residency program located in this state as a second- or third-year resident may be issued a second-year training license ("T-2" license). The holder of a T-2 license may not practice medicine outside of the duties assigned as part, and under the supervision of the faculty, of the residency program (i.e., "moonlight") except as specified in paragraph (H) below. The holder of a T-2 license may independently prescribe legend drugs and medications, subject to all applicable laws and regulations. The T-2 license expires on June 30th of each year, and may be renewed only one (1) time upon applicant's successful completion of the second year of the residency program. If the applicant meets all requirements for issuance of a regular medical license under W.S. 33-26-301(b)(i) and W.S. 33-26-303, the T-2 license may not be renewed.

(C) To qualify for a training license (T-1 or T-2), an applicant must submit the following:

I. Evidence that the applicant has graduated from a school of medicine accredited by the L.C.M.E., a school of osteopathy accredited by the A.O.A., or a Canadian-accredited school of medicine, or that the applicant has been certified by the E.C.F.M.G.;

II. Evidence that the applicant has passed steps one (1) and two (2) of the U.S.M.L.E. or the COMLEX with a two-digit score of not less than 75 on each part;

The applicant will submit documentation that he or she has successfully completed not less than one (1) year in an A.C.G.M.E. or A.O.A. accredited residency program and is enrolled in an A.C.G.M.E. or A.O.A. accredited residency program located in this state as a second- or third-year resident.

(E) When the application for a training license is complete, the Board's executive director shall review the application, and may take the following action:

I. Issue the training license; or

II. Refer the application to the board officers for review. The board officers may issue the training license, issue the training license subject to conditions and/or restrictions agreed upon in writing by the applicant, or deny the application for the training license. If the board officers deny the training license, the applicant may appeal that decision to the full board, which shall review the application de novo, and which may require the applicant and/or the director of the residency program to appear for an interview. The board may issue the training license, issue the training license subject to conditions and/or restrictions agreed upon in writing by the applicant, or deny the application for a training license. If the board denies the application, it shall issue an order to that effect, which shall be appealable to the district court pursuant to the Act and these Rules.

I. Successful completion of the second year of an A.C.G.M.E. or A.O.A. accredited residency program;

III. A recommendation form, as provided by the Board, signed by the director of the residency program, or his or her designee, stating that the applicant is under the supervision of the faculty of the residency program;

IV. A completed renewal application on a form provided or approved by the Board; and,

V. The requisite fee(s) in accordance with this chapter.

(G) Automatic termination of training license. Issuance of a training license is subject to the applicant's current enrollment in an A.C.G.M.E. or A.O.A. accredited residency program located in this state. If for any reason the holder of a training license resigns or is dismissed from, or otherwise is no longer currently enrolled in, an A.C.G.M.E. or A.O.A. accredited residency program located in this state, the training license shall immediately expire and be deemed automatically terminated without additional action by the Board.

(H) A holder of a T-2 license may practice medicine outside of the duties assigned as part of the residency program in which he or she is enrolled (i.e., "moonlight") only if these following conditions are met:

I. The holder of the T-2 license has passed Step 3 of the USMLE or COMLEX with a two-digit score of not less than 75;

(vii) Administrative medicine license. The board may issue an administrative medicine license to a physician who meets all qualifications for licensure in the state, including payment of a fee set by the board, but who does not intend to provide medical or clinical services to or for patients while in possession of an administrative medicine license and signs a notarized statement to that effect. An administrative medicine license is subject to annual renewal.

(b) Licensure Application Processing, Review and Interviews.

(i) When an applicant's core application documents have been received by the Board and are deemed to be satisfactory, the executive director or his designee will review the application and supporting materials to determine whether a licensure interview of the applicant will be required pursuant to this rule. If the executive

director or his designee determines that the applicant has been continually licensed in good standing (not including training licenses) for the preceding three (3) years in one or more states and/or the District of Columbia; and the applicant has a clean application as defined in this chapter, the executive director may, acting on behalf of the Board, issue a temporary license to the applicant pursuant and subject to Chapter 1, Section 6 of these rules, including the requirement for a complete application set forth therein. In no event shall a temporary license issued under this paragraph be valid for more than 180 days from the original date of issuance.

(iii) A summary of each applicant's licensure file and application will be sent to all members of the Board prior to the next regularly-scheduled board meeting, and any board member may request that the applicant appear for a licensure interview.

(iv) Licensure interviews. If an application or any information received by the Board demonstrates that an applicant is of a status or possesses one or more of the following characteristics, or if any Board member believes a licensure interview is necessary given the information contained on the application, the applicant may be required to submit to a licensure interview before a panel of not less than three (3) board members:

(A) Is seventy (70) years old or older;

history indicate an unexplained gap.

(v) Licensure interviews shall be conducted in person (unless otherwise specifically permitted by these rules) and shall consist of oral questions by the panel of board members and oral responses by the applicant. By his or her responses to questions posed in the licensure interview, the applicant must demonstrate to the satisfaction of a majority of the board that he or she is qualified to practice medicine in this state, that (1) he or she possesses a minimum fund of general and identified scope of practice medical knowledge appropriate for the applicant's intended practice in this state, (2) he or she possesses sufficient medical training and medical experience appropriate for the applicant's intended practice in this state, (3) he or she possesses personal and professional character and integrity befitting the practice of medicine, and (4) that there are no other factors contained in the application or disclosed in the licensure interview that would demonstrate that the applicant would be unable to practice medicine in a safe and competent manner.

(vii) If an applicant does not have a licensure interview, a full unrestricted license may be issued to the applicant only upon a majority vote of the board. The board may conduct this vote by voice vote, and may do so using a consent list showing applicants for approval.

(viii) Failure to appear for a licensure interview, regardless of whether a temporary license was issued to the applicant, may result in denial by the board of the application for licensure pursuant to W.S. 33-26-202(b)(i). If an applicant fails to appear for a licensure interview, the Board shall refer the application to the application review committee to bring proceedings to deny the application upon stated reasons following the

procedure set forth in Chapter 7 of these Rules.

Section 5. Licensure.

(a) Pursuant to the Act, the board may issue the following licenses to practice medicine:

(ii) A temporary license to practice medicine pursuant to W.S. 33-26-304(a).

(iii) A restricted or conditional license to practice medicine.

(iv) An inactive license. Inactive licenses are available for physicians currently licensed in Wyoming who do not intend to practice medicine, write prescriptions or engage in clinical activity. The Board may grant an inactive license to practice medicine if, in addition to meeting all eligibility requirements of W.S. 33-26-303, the applicant files a verified affidavit with the board attesting that: (1) he shall not see patients or perform procedures in a clinical or office setting for any type of remuneration, (2) he shall not in any way hold himself out as actively engaged in the active practice of medicine, and (3) he shall submit written confirmation to the board on an annual basis confirming that such inactive status is ongoing. An inactive license exempts the licensee from continuing medical education requirements described in Chapter 3, Sec. 7 of these rules. A holder of an inactive license may not prescribe medications. Licensees claiming inactive status who receive remuneration for providing clinical services, or who prescribe any medication, may be subject to discipline pursuant to W.S. 33-26-402(a)(xxvii).

(v) An emeritus license. Emeritus licenses are available for retired physicians who hold a current Wyoming license to practice medicine and wish to provide clinical care in Wyoming without remuneration or for nominal remuneration in a non-profit facility. from the active practice of medicine, provides proof that he has maintained a license in good standing in Wyoming or another jurisdiction of the United States or Canada for a period of not less than ten (10) years prior to applying for the emeritus license, and signs a notarized statement he will not accept any form of remuneration for medical services rendered in Wyoming while in the possession of an emeritus license, or that he is receiving only nominal remunerations for providing medical care in a non-profit facility. As part of the application process, an applicant for an emeritus medical license who does not hold a current Wyoming license shall complete all requirements for issuance of a Wyoming medical license set forth in W.S. 33-26-303. If a licensure interview is required pursuant to subsection (b) of this rule, such interview may be conducted by one (1) board member and, if deemed appropriate by the board officers, may be conducted by telephonic means.

(A) Physicians possessing an emeritus medical license shall:

(I) Annually sign an affidavit affirming that their medical practice continues to be without remuneration or is for nominal remuneration in a non-profit facility; and

(II) Even though physicians holding an emeritus license are not engaged in active clinical practice, the Board expects that they will engage in life-long learning activities to maintain a base of medical knowledge and skills. Therefore, the requirements for continuing medical education noted in Ch. 3, sec. 7 of these rules apply to emeritus licenses. Continuing medical education may also be satisfied by documented emeritus clinical service in a non-profit health care facility, such clinical service to be credited at one (1) hour of continuing medical education credit for every five (5) hours of clinical service, up to a maximum of ten (10) hours of continuing medical education credit per calendar year.

(B) The board shall require no fees for the application for, or renewal of, an emeritus medical license.

The holder of a T-1 license may not independently prescribe any legend drugs or medications, and may only prescribe legend drugs or medications with the co-signature of a physician holding an active license in good standing in this state. The prohibition on prescribing does not apply to orders written under the supervision of a licensed attending physician

for patients receiving inpatient care. The T-1 license expires on June 30th of each year, and may not be renewed.

(B) Second-year training license ("T-2"). An applicant who has successfully completed not less than one (1) year in an A.C.G.M.E. accredited residency program and is enrolled in an A.C.G.M.E. or A.O.A. accredited residency program located in this state as a second- or third-year resident may be issued a second-year training license ("T-2" license). The holder of a T-2 license may not practice medicine outside of the duties assigned as part, and under the supervision of the faculty, of the residency program (i.e., "moonlight") except as specified in paragraph (H) below. The holder of a T-2 license may independently prescribe legend drugs and medications, subject to all applicable laws and regulations. The T-2 license expires on June 30th of each year, and may be renewed only one (1) time upon applicant's successful completion of the second year of the residency program. If the applicant meets all requirements for issuance of a regular medical license under W.S. 33-26-301(b)(i) and W.S. 33-26-303, the T-2 license may not be renewed.

(C) To qualify for a training license (T-1 or T-2), an applicant must submit the following:

I. Evidence that the applicant has graduated from a school of medicine accredited by the L.C.M.E., a school of osteopathy accredited by the A.O.A., or a Canadian-accredited school of medicine, or that the applicant has been certified by the E.C.F.M.G.;

V. A completed application on a form provided or approved by the Board; and,

(D) Applicants for a second-year (T-2) training license shall be subject to these additional requirements:

I. The applicant will use the Federation F.C.V.S. and have his packet submitted to the board at the applicant's expense;

II. The board shall query the N.P.D.B. and F.S.M.B.'s board action data bank regarding the applicant; and,

III. The applicant will submit documentation that he or she has successfully completed not less than one (1) year in an A.C.G.M.E. or A.O.A. accredited residency program and is enrolled in an A.C.G.M.E. or A.O.A. accredited residency program located in this state as a second- or third-year resident.

(E) When the application for a training license is complete, the Board's executive director shall review the application, and may take the following action:

I. Issue the training license; or

II. Refer the application to the board officers for review. The board officers may issue the training license, issue the training license subject to conditions and/or restrictions agreed upon in writing by the applicant, or deny the application for the training license. If the board officers deny the training license, the applicant may appeal that decision to the full board, which shall review the application de novo, and which may require the applicant and/or the director of the residency program to appear for an interview. The board may issue the training license, issue the training license subject to conditions and/or restrictions agreed upon in writing by the applicant, or deny the application for a training license. If the board denies the application, it shall issue an order to that effect, which shall be appealable to the district court pursuant to the Act and these Rules.

(F) Renewal of T-2 license. To renew a T-2 license, the applicant must provide documentation of the following:

I. Successful completion of the second year of an A.C.G.M.E. or A.O.A. accredited residency program;

III. A recommendation form, as provided by the Board, signed by the director of the residency program, or his or her designee, stating that the applicant is under the supervision of the faculty of the residency program;

IV. A completed renewal application on a form provided or approved by the Board; and,

V. The requisite fee(s) in accordance with this chapter.

(G) Automatic termination of training license. Issuance of a training license is subject to the applicant's current enrollment in an A.C.G.M.E. or A.O.A. accredited residency program located in this state. If for any reason the holder of a training license resigns or is dismissed from, or otherwise is no longer currently enrolled in, an A.C.G.M.E. or A.O.A. accredited residency program located in this state, the training license shall immediately expire and be deemed automatically terminated without additional action by the Board.

(H) A holder of a T-2 license may practice medicine outside of the duties assigned as part of the residency program in which he or she is enrolled (i.e., "moonlight") only if these following conditions are met:

I. The holder of the T-2 license has passed Step 3 of the USMLE or COMLEX with a two-digit score of not less than 75;

II. The holder of the T-2 license receives advance written approval from the residency program director for his or her proposed "moonlighting"; and,

III. The residency program director notifies the Board in advance and in writing of the approved "moonlighting" arrangement.

(vi) Volunteer license. A licensure interview is not required for issuance of a volunteer license. A volunteer license shall be valid for not more than twenty-one (21) consecutive days in any calendar year, and may not be renewed.

(vii) Administrative medicine license. The board may issue an administrative medicine license to a physician who meets all qualifications for licensure in the state, including payment of a fee set by the board, but who does not intend to provide medical or clinical services to or for patients while in possession of an administrative medicine license and signs a notarized statement to that effect. An administrative medicine license is subject to annual renewal.

(b) Licensure Application Processing, Review and Interviews.

(i) When an applicant's core application documents have been received by the Board and are deemed to be satisfactory, the executive director or his designee will review the application and supporting materials to determine whether a licensure interview of the applicant will be required pursuant to this rule. If the executive

director or his designee determines that the applicant has been continually licensed in good standing (not including training licenses) for the preceding three (3) years in one or more states and/or the District of Columbia; and the applicant has a clean application as defined in this chapter, the executive director may, acting on behalf of the Board, issue a temporary license to the applicant pursuant and subject to Chapter 1, Section 6 of these rules, including the requirement for a complete application set forth therein. In no event shall a temporary license issued under this paragraph be valid for more than 180 days from the original date of issuance.

(iii) A summary of each applicant's licensure file and application will be sent to all members of the Board prior to the next regularly-scheduled board meeting, and any board member may request that the applicant appear for a licensure interview.

(iv) Licensure interviews. If an application or any information received by the Board demonstrates that an applicant is of a status or possesses one or more of the following characteristics, or if any Board member believes a licensure interview is necessary given the information contained on the application, the applicant may be required to submit to a licensure interview before a panel of not less than three (3) board members:
